Despite living in Hong Kong for so long, we may not be aware of many environmental and equality issues lying under this metropolis. Did you know that Hong Kong's waters has found a 11-fold increase in plastic pollution in 3 years? What about ethnic minorities facing unemployment due to lack of suitable Cantonese education? You can discover these issues by joining **AIESEC's online interactive webinar!**

Explore these issues through interactive games and insightful discussions, investigate their origins, current situations and discover more about the other side of Hong Kong! Engage with other like-minded individuals, make new friends, investigate different stakeholders' interests and understand how these issues influence our everyday lives. Most importantly, **come up with solutions we can take action to** as a Hong Kong youth! With all our collective efforts, let's envision our tomorrow together!
