

# ENERGY SAVING TIPS

## Energy Conservation Incentive Scheme for Student Hostels

INDOOR LIGHTS CAN BE TURNED OFF UNDER THE SUFFICIENT OUTDOOR LIGHT CONDITION

IN ORDER TO GET ENOUGH LIGHT, IT IS RECOMMENDED THAT STUDENTS OPEN THE CURTAINS OR CLOSE THE SHUTTERS DURING DAYTIME

TURN OFF ELECTRICAL APPLIANCES BEFORE LEAVING

LOWER THE WATER TEMPERATURE WHEN TAKING SHOWER

ALTHOUGH IT IS VERY COMFORTABLE TO TAKE A HOT SHOWER IN WINTER, THE TEMPERATURE OF THE WATER SHOULD BE CONTROLLED AT ABOUT 40 DEGREES, EXCESSIVE WATER TEMPERATURE WILL DESTROY THE PROTECTIVE LAYER OF SKIN AND MAKE IT LESS RESISTANCE TO POLLUTION AND BACTERIA
